Guapísima

A Neo-baroque Display Typeface
Designed by Sebastian Boroș

Ae

This is Guapísima Pro, a black typeface designed for titles, magazines, social media posts, book covers, logos, packaging and whichever project that requires bold elegance. Think Caslon Graphique on steroids, with a dash of 18th-century Spanish baroque: letters with vertical and oblique contrast, tight-but-not-touching spacing, and a wardrobe of typographic niceties. Ligatures, small caps, old-style figures, tabular figures, small-caps figures, fractions, everything is here, so your punchy words can be dramatic and precise.

It is a love letter to the centuries-old tradition of the Gros Canon.

Guapísima is made purely for display. For added flexibility, it comes in two optical weights, or contrast grades: Guapísima Pro Black, and Guapísima Pro Black Strong.

Guapísima Pro Black Strong is intended for relatively smaller text and logos, as its thin parts are a bit thicker. The pair can also be seen as title and subtitle companions.

¡QUÉ NOCHE!

LA OSCURIDAD, EL SILENCIO PAVOROSO, INTERRUMPIDO POR LOS LAMENTOS QUE SE OYEN EN LA VECINA CÁRCEL, COMPLETAN LA TRISTEZA DE MI CORAZÓN.

JOSÉ CADALSO • Noches lúgubres 1771/72

In the second century of the Christian æra, the empire of Rome comprehended the fairest part of the earth, and the most civilised portion of mankind.

Edward Gibbon · The Decline and Fall of the Roman Empire, vol. I (1776)

I love every thing that's old: old friends, old times, old manners, old books, old wine; and, I believe, Dorothy, you'll own I have been pretty fond of an old wife.

OLIVER GOLDSMITH •
She Stoops to Conquer (1773)

My life as a night-shift DJ at the BBC

I was supposed to keep the nation awake with old records. Instead I fell asleep live on air
